International Conference on Robotics, Vision, Signal Processing and Power Applications (ROVISp) has been routinely organized by School of Electrical & Electronic Engineering, Universiti Sains Malaysia (USM) since 1994. The conference has been a place for researchers, scientists, engineers, academicians, students and industrial professional to present and exchange research findings and activities.

This year, the 10th ROVISp 2018 is held in conjunction with 11th Regional Conference on Electrical & Electronic Engineering (RCEE 2018), sponsored by Japan International Cooperation Agency (JICA) for AUN/SEED-Net. RCEE is an annual conference organized by member institutions of AUN/SEED-Net with the purpose to present research outputs of the AUN/SEED-Net network and to pursue discussions on future collaborative research topics. The ROVISp 2018 and RCEE 2018 will be held at Wembley St-Giles Hotel in Georgetown, Penang on 14th – 15th August 2018.

Technical Tracks
ROVISp 2018 and RCEE 2018 conferences invite papers in all aspects of electrical, electronic and mechatronic engineering. The topic of interest are as follows:

- Robotics, Control, Mechatronics and Automation
- Vision, Image and Signal Processing
- Artificial Intelligence and Computer Applications
- Electronic Design and Applications
- Biomedical, Bioengineering and Applications
- RF, Antenna Applications and Telecommunication Systems
- Power Systems, High Voltage and Renewable Energy
- Electrical Machines, Drives and Power Electronics
- Devices, Circuits and Embedded Systems
- Sensors and Sensing Techniques

The Venue
Penang Island, popularly known as the “Pearl of the Orient” is located on the western coast of Peninsular Malaysia. It is connected to the mainland by two bridges; among the longest bridges in the world. Whilst embracing modernity by being the top 3 most developed and industrialized states in Malaysia, Penang still retains its traditions and old charm. Georgetown, the capital of Penang, a UNESCO World Heritage site holds some of the oldest and historically significant structures. It is also renowned for its diverse culinary delights and many beautiful beaches.

Prospective authors are invited to submit full paper in English of 4-6 pages in length including figures, tables and references. Papers exceeding the page limit will be rejected without review. All accepted and presented papers for ROVISp 2018 will be included in the conference proceeding published by Lecture Notes in Electrical Engineering (LNEE) – Springer (Indexed by Ei and Scopus). Meanwhile the RCEE 2018 papers will be considered for publishing in ASEAN Engineering Journal (AEJ).

Important Dates
Submission of Full Paper: 25th March 2018 7th May 2018
Notification of Acceptance: Early June 2018
Submission of Camera Ready: 6th July 2018
Early Bird Registration: 6th July 2018
Normal Registration & Payment: 30th July 2018
