Call for papers

International Conference on Robotics, Vision, Signal Processing and Power Applications (RoViSP) has been routinely organized by School of Electrical & Electronic Engineering Universiti Sains Malaysia (USM) since 1994 (known as Robotics, Vision & Parallel Processing for Industrial Automation, ROVPIA). The conference has been a place for researchers, scientists, engineers, academicians, students and industrial professional to present and exchange research findings and activities.

Technical tracks
RoViSP conference 2021 invites papers related to the following topics:
• Robotics, Control, Mechatronics and Automation
• Vision, Image and Signal Processing
• Intelligence Systems
• Telecommunication Systems and Applications
• Electronic Design and Applications
• Electrical Power, Energy and Industrial Applications
• Biomedical Engineering and Applications
• Computer and Information Technology

Venue
Penang island, popularly known as the "Pearl of Orient", is located on the western coast of peninsular Malaysia. It is connected to the main land by two bridges; among the longest in the world. Georgetown, the capital of Penang is a UNESCO heritage site, which holds some of the oldest and historically significant structures. It is also renowned for its diverse culinary delights and many beautiful beaches.

Prospective authors are invited to submit paper in English of 4-6 pages in length including figures, tables, and references.All accepted and presented papers will be included in the conference proceeding published by Lecture Notes in Electrical Engineering (LNEE)-Springer (Indexed by Ei and Scopus)
